The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the affliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by St. Johns Drug Co.

An Epidemic of Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. Clifford, Proprietor of Norwood House, Norwood, N. Y. This remedy is for sale by St. Johns Drug Co.

Sheriff Beeler of Apache County, went to Globe Monday night. He had located one of his men who escaped from Apache after killing two deputy sheriffs. When Sheriff Beeler left Apache county on the trail of the horse thieves and murderers, he turned his office over to his deputy with the instructions to run the office the best he knew how, as he did not intend to return until he brought a prisoner with him. This is the kind of Sheriff the people want.—Bulletin.

The Los Angeles Times publishes the following A. P. night report in its issue of May 7:

PHOENIX, ARIZ., May 6.—Sheriff Ed Beeler of Apache county passed thru here today en route to his home in St. Johns, Ariz., leaving in custody Bill Morris, alias "Coley" Morris, arrested near Globe, May 2, on a charge of being an accessory to the murder of Gus Gibbons and Frank L. Lesteur in Apache county, March 27.

The gang that did the work is supposed to consist of seven men, intent on robbing a Santa Fe Pacific train, but the plot was nipped in the bud by the Sheriff pursuing them for killing cattle, and the murder was committed in the flight. It is believed that members of the same gang killed George Scarborough, recently in Cochise county. Morris admits an acquaintance with members of the gang, but says he was not interested, and can prove an alibi, tho his description answers perfectly to that of one of the men wanted.

Robbed the Grave.

A startling incident, of which, Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement, I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed, at St. Johns Drug Co.
